

***Embrace your inner flower goddess with Global Desi's Resort 2017 collection-  
'Florascope'***

**Mumbai, May 2017:** It's time to pack your bags and head out to a holiday destination- now whether it's a beach or trekking in the mountains or exotic locations- all you need is outfits to match your destination! This summer, Global Desi captures the romance and lightness of summer colours and celebrates the bounties of blooms with its Resort 2017 collection – Florascope , where fresh flowers whiff around you.

This swoon-worthy collection is nothing short of floaty, folksy, kaleidoscopic florals merging with the charm and happiness of summer. The colour palette exudes bursts of pink, orange, white, electric blue and red on free flowing, breezy fabrics. The brand pushes forward easy yet edgy styles with cold shoulders and tassel tie-ups onto dresses, rompers, jumpsuits, tops, tunics and jackets which can be accentuated with statement accessories.

The #Florascope collection is both free-spirited and versatile just like the Global Desi girl. Look through her florascopic lens and discover the magical world of make-believe!
